🌟 About Me

Self-driven and tech-savvy student developer passionate about creating clean, modern web experiences. Currently diving deep into React, UI/UX, and building real-world apps with tools like Vite and Tailwind. Looking for an internship to level up my dev skills, contribute to real projects, and grow with a forward-thinking tech team.

🎓 Education

Frontend Development — *Uncommon.org*

Harare, Zimbabwe | Expected Grad: 2025

- Relevant Courses: Web Dev, JavaScript, UI/UX, Databases
 - Projects built using React, Vite, Bootstrap, and more
-

 - Tools: Git & GitHub, VS Code
 - Concepts: Responsive design, version control
-

Projects

 Personal Portfolio Website – <https://github.com/lyncia22/my-portfolio>

React + Vite | Live preview

- Built a responsive portfolio from scratch
- Includes About Me, Projects, and Contact form with cool animations

Buildlink Services Platform (UI) – <https://github.com/lyncia22/build>

React | In progress

- Designing a construction services web platform with React
- Features custom components, Bootstrap grid system & creative layouts

 Job Scraper Tool

Python | Terminal-based

- Scraped job data from Zimbabwean job boards using BeautifulSoup
- Outputs job titles and links for quick access — great for entry-level seekers

Certifications & Learning

- Google Digital Skills Africa — 2025
- Introduction to Python — 2025
- Fundamentals of Digital Marketing — 2025

Soft Skills

- Adaptable & always learning
 - Great communicator
 - Problem-solver & creative thinker
 - High attention to detail (and design)
-
